# Design Brief

The Portfolio Website serves as a way to showcase my work and describe myself in a way that a traditional CV cannot.

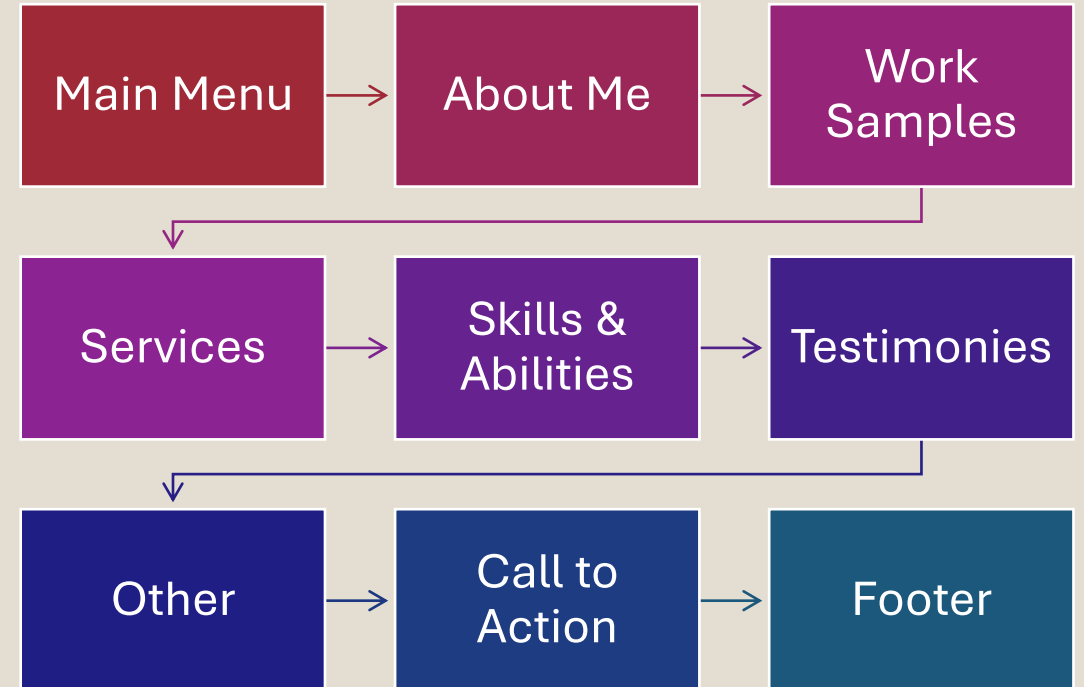

It is equivalent to a canvas for my best projects and case studies and a graphical way of adding another dimension to my credentials.

It expresses my personality, experience, and capabilities, but most importantly, complements Artisan Consulting as a business brand.

# Content

The background of the slide is a highly detailed fractal image. It features intricate, self-similar swirling patterns that resemble stylized seashells or nautilus shells. The color palette is primarily composed of various shades of blue, ranging from deep navy to light sky blue, with accents of purple and white. The overall effect is a sense of organic complexity and mathematical beauty.
